ARCHANA K

DATA ANALYST

Malappuram, Kerala, India | +91 7306854145 | archanaramesh585@gmail.com| LinkedIn | GitHub

SUMMARY

Aspiring Data Analyst with skills in Excel, SQL, Python, and Microsoft Power BI. Hands-on experience in creating dashboards, KPI reports, and data visualizations through real-world datasets and academic projects. Strong interest in data analysis, business intelligence, and data-driven decision-making with excellent analytical and problem-solving skills.

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Data Analysis: Excel, Data Cleaning, Data Preprocessing, Data Transformation, Exploratory Data Analysis (EDA)
- Libraries: NumPy, Pandas
- Data Visualization & BI Tools: Matplotlib, Seaborn, Plotly, Power BI (Dashboard Development, Data Reporting)
- Machine Learning: Basics of Supervised Learning
- Dashboard Development: KPI Reporting, Interactive Dashboards
- Databases: MySQL

EDUCATION

- Professional Diploma in Data Analytics - IPCS Global 2025 - 2026
- Bachelor of Computer Application (BCA) - ISS Arts and Science College Perinthalmanna, Calicut University 2021 - 2024

PROJECTS

Hospital Management Analytics Dashboard | Excel, Power BI, DAX & Machine Learning

- Developed an interactive **6-page Hospital Management Analytics Dashboard** using Excel, Power BI, DAX, and Machine Learning to analyze patient admissions, revenue, doctor performance, department insights, and bed occupancy.
- Built KPI-driven dashboards with interactive navigation, slicers, and visualizations. Implemented **Machine Learning-based risk prediction** and **3-month forecasting** for patients, revenue, admissions, and bed occupancy to support data-driven decision-making.

Nykaa Sales Analysis Dashboard | Power BI

- Developed an interactive **Sales Analysis Dashboard** using Power BI to analyze sales performance, profit trends, customer behavior, and product insights across different categories.
- Created KPI-driven visualizations, charts, slicers, and DAX measures to identify top-performing products, revenue trends, and key business performance metrics.

Social Media Marketing Campaign Analysis Dashboard | Excel & Power BI

- Developed an interactive **Social Media Marketing Dashboard** using Excel and Power BI to analyze campaign performance, engagement trends, clicks, conversions, impressions, and follower growth across multiple platforms.
- Performed data cleaning and transformation in Excel and created KPI-driven visualizations, charts, slicers, and DAX measures in Power BI to generate actionable marketing insights.
